

P-0106

Dear Mr. Collins,

I would like to express my opinion on the Hanford Solid Waste EIS.

Please send me a response to my comment.

1 I oppose centralized location of waste. It should be stored and made safe at its source. Why should others, who received no benefit from creation of the waste, be made to suffer the possible consequences of its storage? If places are safe for production, they are safe for disposal and storage. (or why were they allowed in the first place?)

Dear Mr. Collins,

I would like to express my opinion on the Hanford Solid Waste EIS.

Please send me a response to my comment.

1 Before Hanford accepts more radioactive solid waste, they should be much further along in their cleanup activities. To date,

2 their record ~~from~~ for the management of ~~and~~ existing waste is not very good.

Dear Mr. Collins,

I would like to express my opinion on the Hanford Solid Waste EIS.

Please send me a response to my comment. - No, use your energy more constructively.

1 Reading my mail today is enlightening and depressing. For years I have been concerned about radioactive waste. I am appalled at the turn of events - shipping on freeways, thru cities, etc. How dangerous. You're going to kill us all. Please be more careful!

Dear Mr. Collins,

I would like to express my opinion on the Hanford Solid Waste EIS.

Please send me a response to my comment.

- 1 Please stop adding more radioactive chemical
- 2 waste to Hanford! Please end all radioactive
- 3 waste disposal in unlined soil ditches!
- 4 Please save the Columbia River & the future of the Hanford Reach!!
- Protect the health of public - do all you can & keep chemical waste off our roads!

Thank you!

Dear Mr. Collins,

I would like to express my opinion on the Hanford Solid Waste EIS.

Please send me a response to my comment.

1 We must stop the Hanford mess to save  
the Columbia River for future generations.

2 More waste will only add as burden to  
the clean up.

3 Shipping truckloads of radioactive waste  
in mass risks to citizens along OR  
and WA highways

Dear Mr. Collins,

I would like to express my opinion on the Hanford Solid Waste EIS.

Please send me a response to my comment.

- 1 I want to see Hanford completely
- cleaned up and not accept any more
- 2 nuclear waste. I agree with WA state's
- Attorney General that shipping TRU to
- Hanford from Ohio + CA violates the law.
- The mission at Hanford needs to be
- 3 completely devoted to environmental
- stewardship + remediation, and should no longer
- be in the business of nuclear waste production or
- acceptance.

Dear Mr. Collins,

I would like to express my opinion on the Hanford Solid Waste EIS.

Please send me a response to my comment. But do not send me a print copy of the SWEIS

- 1 I missed the Portland meeting so I
- reviewed the revised EIS on line.
- 2 I remain concerned that con-
- taminants are expected to continue
- to leach into the Columbia River. And
- 3 I remain concerned that hazardous
- radioactive waste will be shipped
- along the highways. I frankly lack
- the expertise to comment on specifics but
- I implore you to maximize the cleanup, not
- bring more waste
- to Hanford, + eliminate
- shipping waste by truck.

Dear Mr. Collins,

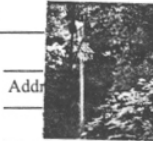

I would like to express my opinion on the Hanford Solid Waste EIS.

Please send me a response to my comment.

- 1 Don't let the Hanford location become  
even more of a radioactive waste dump  
than it already is. We still don't know  
of the longterm effects of what is already  
2 buried on this land. The inevitable con-  
tamination of the Columbia River is in our  
future. No more!!

Dear Mr. Collins,

I would like to express my opinion on the Hanford Solid Waste EIS.

Please send me a response to my comment.

- 1 We do not want more toxic waste in  
Washington. Hanford is already the  
most radioactive spot in the U.S.A.  
2 What we need is a definite plan, along  
with the needed money, to keep radio-  
active waste from forever polluting  
the Columbia River.
